

REGINA ANDREW

DETROIT

R/A

BLOOD SWEAT & TEARS

A TALE OF GRIT AND GRACE

The RAD home interiors powerhouse was built from the ground up starting in 1998 by Co-Founders, James "Andrew" Slaven and Carla "Regina" Zajac. The couple's distinct, yet complimentary personalities and artistic specialties have forged the brand's unique aesthetic of old meets new, rock meets glam and homegrown meets worldly influence. Their Detroit roots have instilled a blue collar work ethic and a commitment to nurturing the surrounding community. Sourcing local raw materials and talent is another pillar of the brand's success. This year the company was featured in a number of press sources including GrowWire.com's 3-part video series focusing on how the company's founders have grown the business from humble beginnings to a full-fledged, multi-faceted design powerhouse.

The story of Regina Andrew is an underdog tale of grit, drive and commitment that has transformed into a successful, self-made brand.

The image displays three Hudson pendant lights, labeled H, I, and J, arranged horizontally. Each light features a black cord, a cylindrical metal base with a textured pattern, and a clear Edison-style bulb. The shades are star-shaped and made of metal. Light H has a blackened brass shade, light I has a natural brass shade, and light J has a blackened brass shade. The background is white.

LIVE FROM DETROIT

Always one to stretch the boundaries of innovation and design, RAD's Live from Detroit Collection takes beautiful experimentation to the extreme. These one-of-a-kind pieces created in Regina Andrew's Detroit-based fabrication studio demonstrate master craftsmanship and artisanal techniques that can't be found anywhere else.

Regina Andrew Finish Disclaimer

All finishes within this catalog are to be used only as a general color reference.

Products using natural materials will have variations in color, texture and finish.

Many products are hand crafted and intended to have vintage, one-of-a-kind irregularities.

These characteristics add depth, beauty and texture and should not be considered defects.
